Grade Report

Design Grading:

Correctness: 10/10

Data Design: 6/6

Function Specification: 4/6

- : gesture-start signature is wrong
- : use of word "stable" for three different types of data in the same class. Too complex code
- : implementation of certain functions is really long. Please follow one function one task

Implementation: 3/6

- : use of set instead of creating new objects

Style: 5/6

- : Please AVOID use of magic constants in many functions

Deductions:

Design Total: 28/34

Notes:

Codewalk Grading:

Partner1:

Q&A: 9/10

- : did not know when to use object oriented and when to use functional approach

Presentation: 5/6

- : NOTE: Do not answer questions asked for the other partner! Answered question asked to sudjoshi

Partner 1 Codewalk Total 14/16

Partner2:

Q&A: 9/10

: did not know when to use object oriented and when to use functional approach

Presentation: 4/6

: Did not know some parts of the code. The other partner promptly took over!

Partner 2 Codewalk Total: 13/16

Overall Score for Partner 1: 43/50

Overall Score for Partner 2: 41/50
